Allowable Subject Matter

1. Claims 7-9 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 7, the prior art of the record fails to show or fairly suggest a camera comprising a focus adjusting mechanism which performs a focus adjustment operation for the subject image by varying a distance between the reflective member and the subject image capturing device; and a subject light beam incident window, formed in a housing member, and having an opening dimension that permits the light beam from the subject incident on the first lens unit to be transmitted therethrough, wherein the window has a long edge thereof to permit the light beam incident on the first lens unit to be transmitted therethrough regardless of when the distance between the reflective member and the subject image capturing device, which is varied in response to the focus adjustment operation, is set to be shortest or when the distance between the reflective member and the subject image capturing device is set to be longest, in combination with other claim elements.

Claims 8-9 are allowable for the reason given in claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
